

SPECLEDGER SAMPLE DATASHEET - synthetic fixture, not a manufacturer publication.
The voltage below is the one the challenge dataset itself states
for this part. Nothing here was invented to fill a field.

OUTDOOR TIMER

Part Number: TNOCD002

Voltage Rating: 125 V

Matches row TNOCD002 of the official 1,000-row challenge dataset,
so this one demonstrates the link inside Unilog CX1 Master.
